

DIRECTIONS TO JUSTIN NEELY'S STUDIO

FOR RED HOOK OPEN STUDIOS 2024

(based liberally on the exceptional guidance at hotwoodarts.org)

I recommend starting with **Citymapper.com** (or the app) for the best public transportation options from where you are to **481 Van Brunt Street 11231**.

Feinberg Studios is located in a warehouse to the left of Food Bazaar supermarket (formerly Fairway). The entrance is on the canal side of the building. There is no street side entrance.

Walk to the water at the very end of Van Brunt Street and take a left through the parking lot, then another left around the building.

For elevator access: A passenger elevator is available three doorways left of the dock. (It is painfully slow—but works. Usually.) Take it to the 3rd floor, turn right as you exit, and make a quick right again. Walk straight to the last accessible fire entrance at the very end of the hallway.

For direct access via stairs: Keep walking *beyond* the loading dock. Feinberg Studios has two spaces in the building. My studio is in area 11C, which is on the 3rd floor to the right of the loading dock when you face it.
